BEATEN PATH - 4541 This 41 foot pattern is much like the MIDDLE ROAD but two feet longer. Because of this added length, the options of attack will be a little more limited and the pattern will usually play where the most worn or highest friction part of the lane surface is. The players who excel in reading the lanes will easily find the BEATEN PATH and make this pattern look relatively easy. If you veer too far off the BEATEN PATH, it will play more difficult.

### Oil Pattern Distance

- **Forward Oil Pattern Distance:** 41 Feet
- **Reverse Oil Pattern Distance:** 36 Feet
- **Oil Per Board:** 60 mL
- **Reverse Brush Drop:** 36 Feet
- **Oil Per Board:** 50 uL
- **Total Boards Crossed:** 521 Boards

### Conditioner and Transfer Type

- **Conditioner:** Type In or Select One
- **Transfer Type:** Type In or Select One

### Chart

- **Forward Oil**
- **Reverse Oil**
- **Combined**
- **Buff**

The chart shows the distribution of oil across the lanes, with tracks ranging from 5 to 45. Each lane has a specific amount of oil, and the chart visually represents the distribution, helping players understand where to aim their shots.
